

We are five minutes' walk from **Shadwell DLR and Overground stations**. St George-in-the-East's main entrance is on Cannon Street Rd, but (during daylight hours) there is also pedestrian access from Cable St and The Highway via St George's Gardens, a public park. CTC's entrance is at the **south-east corner of the Church**, marked above with a **blue arrow**.

We encourage visitors to **walk, cycle or use public transport** to visit us. There is a small church car park, accessed from Cannon Street Rd, but parking spaces are limited and on a first-come-first-served basis.

St George-in-the-East serves the diverse Church of England Parish of St George-in-the-east with St Paul. The church was built in the early 18th Century, designed by Nicholas Hawksmoor, an assistant of Sir Christopher Wren. It was badly damaged by a bomb during the Blitz in 1941 and a new church was rebuilt within the original walls, reconsecrated in 1964. It is a Grade 1 Listed building. It remains open daily for worship and prayer. For more on the church please see stgite.org.uk

The Crypt was used for burials for over 200 years, as well as briefly serving as an air-raid shelter 1942-1945, but in 1960 it was cleared and became a performance space. In 2005-6, it was remodelled to create an office space and separate nursery. CTC occupies the East Crypt and is delighted to be part of the ongoing story of St George-in-the-East.

So, now we are based in an 18th Century church crypt, in the heart of the diverse community of Shadwell, right next to Wapping and Docklands and walking distance from the Tower and the City of London... there is something for everyone here! Do drop in and see us.
